About Me

I am a MERN and MEAN Stack Developer and Java enthusiast. I made many projects using HTML, CSS (Bootstrap and Tailwind CSS), JavaScript, NodeJS, ReactJS and NextJS. I love to write blog and share my experiences and knowledge to others. I can Develop Windows Applications, Android Applications and develop Websites.

Project I built

A Shopping Website

A Shopping Website

I created a shopping website called "Shopixia". Basically, it is a demonstration or a prototype of a Shopping Website. I used HTML, little bit of CSS and Tailwind CSS for a better look. I used GitHub Pages for hosting my Website for free and I uploaded my HTML file in my GitHub account -
